

Dinosaur's trail quiz

General information about dinosaurs

1. Match the dinosaurs with their tracks

2. Which of these dinosaurs were herbivorous and which carnivorous?

Label with correct

H - herbivorous

C - carnivorous

Triassic

3. Name the track made by small *Coelophysid - Camposaurus*

.....

4. Write the name of the dinosaur which made this footprint

.....

Jurassic

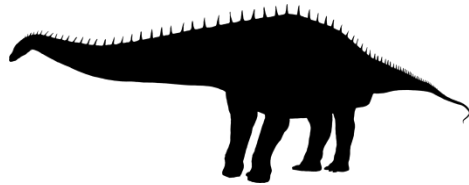

5. Which of these dinosaurs is a *Scelidosaurus*? Mark the correct one

6. Prosauropod (*Plateosaurus*) left which tracks? Circle one

- a) *Otozoum*
- b) *Dinehichnus*
- c) *Anomepus*

7. Name the largest Jurassic dinosaur in the Moab Giants Park (this dinosaur has a long neck and tail)

.....

8. Where was the first stegosaurian track found?

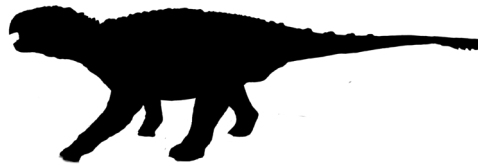

.....

9. What does *Hesperosaurus* mean? (read carefully the information about stegosaur)

.....

10. Mark the correct name of this dinosaur:

- a) *Ankylosaurian*
- b) *Triceratops*
- c) *Coelophysis*

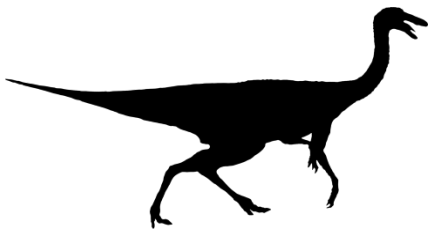

11. Complete the text:

Allosaurs were the largest carnivores of the Late Jurassic time. They lived million years ago. Their teeth were thinner and sharper than those of, and adapted to cut meat instead of crushing bones. They left/ made tracks, which called

Cretaceous

12. What group of dinosaurs represents *Gallimimus*, the trackmaker of *Magnoavipes*? Complete:

.....

13. Where did the researcher find *Utahraptor*? Complete:

.....

14. Saltasaur is a representative of the titanosaurs. Titanosaurs, one of the largest dinosaurs, lived on almost all continents except one. Mark/circle correct answer.

- a) Australia
- b) Asia
- c) Antarctica

15. On the trail find the only species of the flying reptile. What is the name of its tracks?

.....

16. What does *Parasaurolophus* mean? Complete:

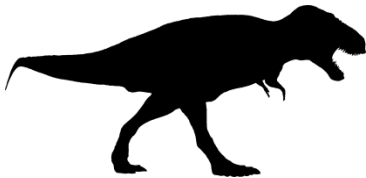

.....

17. *Avaceratops* is a representative of (mark/ circle correct name):

- a) duck-billed dinosaurs
- b) horned dinosaur
- c) armored dinosaur

18. What is the name of the world's most famous carnivorous dinosaur, which lived in the Cretaceous period? Complete.

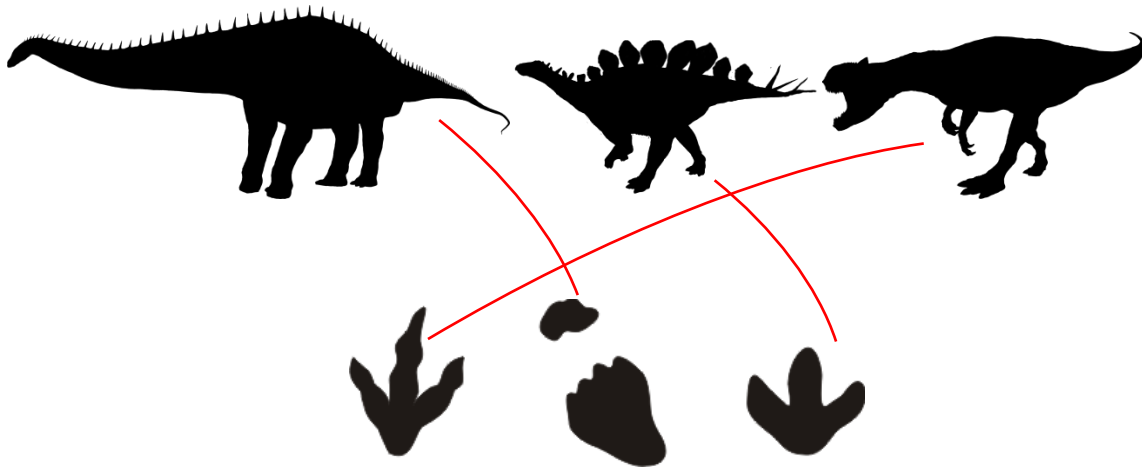

.....

Dinosaur's trail test/quiz

General information about dinosaurs

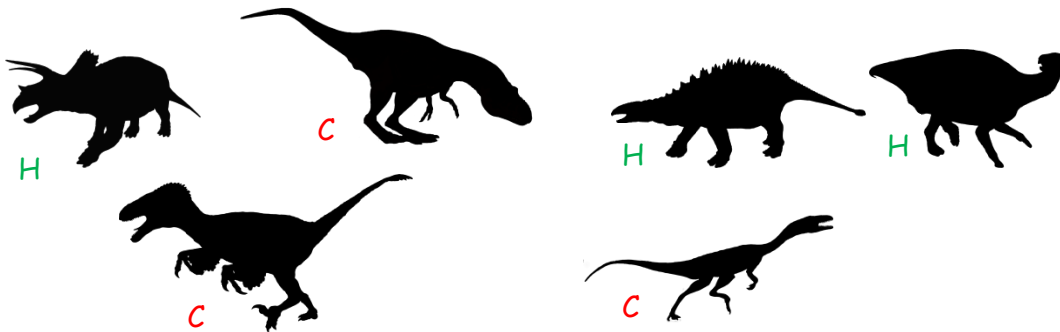

1. Match the dinosaurs with their tracks

2. Which of these dinosaurs were herbivorous and which carnivorous? Label with correct

H - herbivorous

C - carnivorous

Triassic

3. Name the track made by small *Coelophysid - Camnosaurus*

Grallator

4. Write the name of the dinosaur which made this footprint.

Silesaurus (Silesaurus opolensis)

Jurassic

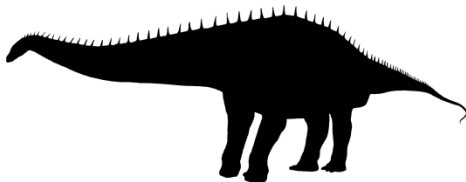

5. Which of these dinosaurs is a *Scelidosaurus*? Mark the correct one

6. Prosauropod (*Plateosaurus*) left which tracks? Circle one

- d) *Otozoum*
- e) *Dinehichnus*
- f) *Anomepus*

7. Name the largest Jurassic dinosaur in the Moab Giants Park (this dinosaur has a long neck and tail)

Diplodocus

8. Where was the first stegosaurian track found?

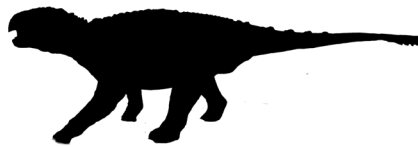

Morrison Formation near Moab Airport

9. What does *Hesperosaurus* mean? (read carefully the information about stegosaurus)

"western lizard"

10. Mark the correct name of this dinosaur:

- d) *Ankylosaurian*
- e) *Triceratops*
- f) *Coelophysis*

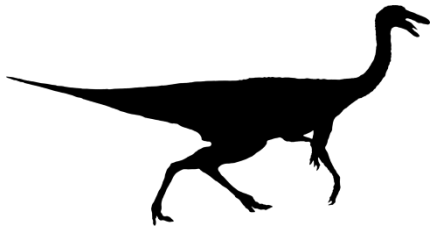

11. Complete the text:

Allosaurs were the largest carnivores of the Late Jurassic time. They lived 157,3-145 million years ago. Their teeth were thinner and sharper than those of ...*tyrannosaur*..., and adapted to cut meat instead of crushing bones. They left/made tracks, which called *Megalosauripus*

Cretaceous

12. What group of dinosaurs represents *Gallimimus*, the trackmaker of *Magnoavipes*? Complete:

bird-like dinosaurs (ornithomimids)

13. Where did the researcher find *Utahraptor*? Complete:

Grand County, Utah

14. *Saltasaurus* is a representative of the titanosaurs. Titanosaurs, one of the largest dinosaurs, lived on almost all continents except one. Mark/circle correct answer.

d) Australia

e) Asia

f) Antarctica

15. On the trail, find the only species of the flying reptile. What is the name of its tracks?

Haenamichnus

16. What does *Parasaurolophus* mean? Complete:

"near crested lizard"

17. *Avaceratops* is a representative of (mark/ circle correct name):

d) duck-billed dinosaurs

e) **horned dinosaur**

f) armored dinosaur

18. What is the name of the world's most famous carnivorous dinosaur, which lived in the Cretaceous period? Complete.

Tyrannosaurus short **T.-rex**
